Surfaces

Tea towel (CLBC001)

Supplies

Scrap fabric
Brushes
Iron and ironing board
White paper
Toothpicks (optional)
Hair dryer (optional)
Tea towel

Instructions

1. Wash and dry towel; iron flat.
2. Spray Ink Effects Basecoat on towel where images will go.
3. Paint kitchen images onto plain white paper. (Use printouts from computer images for guide if needed.) Toothpick works great for tiny spaces.
4. Let basecoat and paint dry 45 minutes, or speed up with hair dryer.
5. Place scrap fabric under tea towel and place paper, paint side down, onto towel. Cover with blank paper.
6. With iron on cotton setting, no steam, iron for one to three minutes, moving iron to prevent spots or scorching. Remove paper.

Helpful Hint

Note that Ink Effect colour matches lid, not actual paint colour, and that higher count cotton fabrics will pick up lighter shade.
